## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to because the drawings appear to be photocopies and are not clear. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 9a, 9b. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is

being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### *Specification*

3. The disclosure is objected to because of the following informalities:

On page 2, line 15, "features of claim 1" is inappropriate language for the specification since the claim language may change throughout prosecution. On lines 16-17, "preamble of claim 1" is disclosed which is inappropriate since the preamble of the claim could change.

On page 8, lines 5-7, the disclosure that the "parts are indicated with the same reference numerals" is incorrect since the reference numbers are primed. On line 22, trim 3' should apparently be trim 3a' and 3b'. Appropriate correction is required.

### *Claim Objections*

4. Claim 14 is objected to because of the following informalities: on line 1, "of" should be deleted. Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 13-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 recites the limitation "the vehicle interior" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 17 recites the following limitations: "the inner window beltline" in line 2, "the vehicle" in line 2, "the lower edge" in line 3, and "the door" in lines 3-4. There is insufficient antecedent basis for these limitations in the claim.

Claim 18 recites the limitation "the screw domes" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 19 recites the limitation "the vehicle exterior" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 24 recites the limitation "the vehicle longitudinal axis" in line 2. There is insufficient antecedent basis for this limitation in the claim.

#### ***Allowable Subject Matter***

7. Claims 13-24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

#### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
